Master the implementation and management of information security management systems (ISMS) based on ISO/IEC 27001:2022

Why should you take this training course?

Information security threats and attacks grow and improve constantly. As such, organizations are increasingly concerned about how their valuable information is handled and protected. The best form of defense against them is the proper implementation and management of information security controls and best practices. Information security is the globally accepted benchmark and also a key expectation and requirement of customers, legislators, and other interested parties.

This training course is designed to prepare you to implement an information security management system (ISMS) based on the requirements of ISO/IEC 27001. It aims to provide a comprehensive understanding of the best practices of an ISMS and a framework for its continual management and improvement. The training content is packed with practical exercises and case studies which will help you get equipped with real-world expertise that you can apply to your day-to-day operations and activities. Our training courses are all-inclusive, meaning that they cover everything you need to get the certificate.

PECB CERTIFIED ISO/IEC 27001 Lead Implementer

23-26 SEPTEMBER 2025

**MONOMOTAPA HOTEL
HARARE**

Who should attend this training course?

- Managers or consultants involved in and/or concerned with the implementation of an information security management system in an organization
- Project managers, consultants, or expert advisers seeking to master the implementation of an information security management system; or individuals responsible to maintain conformity with the ISMS requirements within an organization
- Members of the ISMS team

Why is this course more desirable than the others?

The reasons why the PECB Certified ISO/IEC 27001 Lead Implementer training course is more desirable and valuable than the others is because it not only enables you to acquire the knowledge and competence in implementing an information security management system (ISMS) but also teaches you how to apply the skills required in practice. In addition to what the ISO/IEC 27001 standard tells you to do, this training course instead tells you how to do it, through various activities, exercises, case studies, multiple-choice standalone quizzes, and scenario-based quizzes. These will allow you to test your knowledge about the implementation process steps.

After attending the training course, you can take the exam. The exam type is unique because it is open-book and contains multiple-choice questions. It also contains standalone questions and scenario-based questions, which aim to simulate a real-life situations. If you successfully pass it, you can apply for a “PECB Certified ISO/IEC 27001 Lead Implementer” credential which demonstrates your ability and practical knowledge to implement an ISMS based on the requirements of ISO/IEC 27001.

What will the certification allow you to do?

Certification is the formal recognition and proof of knowledge which carries an important weight when you are entering the labor market, or when you want to advance in your career. Due to the technological advancements and the complexity of cyberattacks, the demand for IT professionals continues to be in high demand. As such, the ISO /IEC 27001 certification has become the norm for best-practice in information security. By taking a certification you showcase a certain skill level which will display added value not only to your professional career but to your organization as well. This can help you stand out from the crowd and increase your earning potential.
